SUMMARY

UX/UI Designer with 3+ years of experience designing enterprise dashboards, SaaS platforms, data-rich interfaces, and responsive web products. Skilled in translating complex workflows and stakeholder requirements into intuitive information architecture, user flows, wireframes, and high-fidelity interfaces. Experienced collaborating with engineers and cross-functional teams to turn ambiguous, data-heavy problems into usable, well-tested product experiences, with hands-on proficiency in Figma and Adobe Creative Suite.

EXPERIENCE

Graphic & Product Designer <i>Growth Partners Agency</i>	Apr 2024 – Present Coimbatore, India
- Design digital experiences across websites, landing pages, SaaS interfaces, dashboards, and responsive web products. - Translate business requirements and user needs into user flows, information architecture, wireframes, prototypes, and high-fidelity UI. - Simplify complex information and workflows into clear, intuitive interfaces through hierarchy, interaction patterns, and structured layouts. - Collaborate with stakeholders and developers to understand requirements, present design solutions, iterate based on feedback, and support implementation. - Create reusable UI components and visual patterns to improve consistency across digital experiences. - Prepare design assets and specifications for developer handoff while maintaining visual and interaction consistency. - Balance usability, accessibility, visual design, business objectives, and technical constraints throughout the design process. - Designed ad creatives and campaign assets achieving an average 3X return on ad spend (ROAS).	
Product Design Intern <i>Magnil Technology</i>	Feb 2025 – Jul 2025 India
- Contributed to product design workflows including user flows, wireframes, and high-fidelity UI as part of the product design team. - Collaborated with the design and product team to translate requirements into usable interfaces. - Supported design handoff and iteration based on team and stakeholder feedback.	
Graphic Designer <i>Digifills Private Limited</i>	Dec 2022 – Oct 2023 Chennai, India
- Designed digital interfaces, websites, landing pages, and visual experiences for multiple client requirements. - Translated business objectives and content into clear information hierarchies, responsive layouts, and user-focused digital experiences. - Collaborated with internal teams and stakeholders to understand requirements, present concepts, incorporate feedback, and deliver final designs. - Applied typography, layout, visual hierarchy, interaction principles, and brand systems across digital touchpoints. - Managed multiple projects simultaneously while maintaining quality, consistency, and delivery timelines.	

PROJECTS

ZenHR — HR Management Dashboard UX/UI & Enterprise Product Design
- Designed an enterprise HR management dashboard for organizing employee information and operational workflows. - Structured complex, data-heavy organizational information into clear dashboard views and navigation for daily operational use. - Designed data-rich interfaces with emphasis on hierarchy, readability, and efficient information access for enterprise users. - Created wireframes, high-fidelity screens, reusable components, and interactive prototypes to validate workflows before handoff. - Applied enterprise UX principles to make complex, multi-stakeholder workflows easier to understand and navigate.
SWAP — Second-Hand Marketplace UX/UI & Product Design
- Designed a marketplace experience focused on helping users discover, evaluate, and purchase second-hand products. - Created information architecture, user flows, wireframes, high-fidelity UI, and interactive prototypes. - Designed reusable components and interaction patterns to maintain consistency across the product.
VoiceTouch — Voice AI Application UX/UI & Accessibility-Focused Product Design
- Designed a voice-enabled experience focused on making digital interactions more accessible for visually impaired users. - Explored user needs and accessibility considerations through research to define simplified interaction patterns. - Designed user flows, wireframes, UI screens, and interactive prototypes, and tested with target users for clarity and ease of use.

SKILLS

UX/UI: User-Centered Design, UX Research, User Flows, Information Architecture, Interaction Design, Wireframing, Prototyping, Usability Testing, Visual Design, Responsive Design, Accessibility, Design Systems
Product: Enterprise UX, Dashboard Design, Data-Rich Interfaces, Complex Workflows, SaaS Design, Design Handoff, Stakeholder & Cross-Functional Collaboration
Tools: Figma, Adobe Photoshop, Adobe Illustrator, Adobe XD, Balsamiq, Framer, Webflow

EDUCATION

Bachelor of Science — Visual Communication	2022
<i>Avinashilingam Institute for Home Science and Higher Education for Women</i>
